DETAILED ACTION

The prior restriction requirement is being vacated in view of the telephone conversation with Mr. Stevens on 7/19/04. Mr. Stevens indicated that the applicant did not like responding to an election of species requirement without having the claims presented with the separate species (not required by the MPEP). After indicating that the prior office action correctly followed the rules and guidelines set out in the MPEP with regard to a species requirement, as a matter of customer service and the fact that the prior examiner has since left the office, the previous election requirement is being withdrawn in view of the following requirement, which outlines which claims go with the distinct species.

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species	Figure(s)	Claim(s)
I	2 and 3	4-8, 13,14,18-26,36, 40,47-50
II	4	4-7,8,13,14,18,21,24,25,36,40,47-50
III	5	4-7,9-12,14,18,21,24,25,36, 40,47-50
IV	6	36, 40
V	7	27-30, 38,43,44
VI	8	31-35, 39,45,46
VII	9	3-6,36, 40,47-50

Art Unit: 3683

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-3, 15-17,37,41,42 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication should be directed to Jack W. Lavinder at telephone number 703-308-3421.
